CHAPTER SIX

ZONING - LAND USE PLANNING

NOTE: Zoning and land use planning and development are best left to local design. Therefore, this code will not attempt to formulate model zoning and land use ordinances.

It should be noted that a city may, by resolution, relinquish its zoning authority to the County Zoning Board of the county in which the city is located. The County Zoning Ordinances are then incorporated, by reference, into the city's revised ordinance code. If the City does not relinquish its zoning authority what follows is a broad outline of model zoning ordinances.

CHAPTER SIX

ZONING - LAND USE PLANNING

ARTICLE 1 - Planning and Zoning Commission

If the City exercises extraterritorial zoning authority pursuant to North Dakota Century Code section 40-47-01.1, the planning commission must include one (1) member residing outside the corporate limits of the city. Such persons shall be appointed by the county commission. (Source: North Dakota Century Code section 40-48-03)

In granting any variance, the Board of Adjustment shall prescribe any conditions that it deems to be necessary or desirable. However, no variance in the strict application of any provision of this chapter shall be granted by the Board of Adjustment unless it finds:

strict application of the provisions of this chapter would deprive the applicant of the reasonable use of such land or building.

- ii. That, for reasons fully set forth in the findings, the granting of the variance is necessary for the reasonable use of the land or building and that the variance as granted by the board is the minimum variance that will accomplish this purpose.
- iii. That the granting of this variance will be in harmony with the general purpose and intent of this chapter and will not be injurious to the neighborhood or otherwise detrimental to the public welfare. In addition to considering the character and use of adjoining buildings and those in the vicinity, the board, in determining its finding, shall take into account the number of persons residing or working in such buildings or upon such land and traffic conditions in the vicinity.
- 3. Procedure. The Board of Adjustment shall act in strict accordance with the procedure specified by law and by this chapter. All appeals and applications made to the Board shall be in writing, on forms prescribed by the Board. Every appeal or application shall refer to the specific provision of the ordinance involved, and shall exactly set forth the interpretation that is claimed, the use for which the special permit is sought, or the details of the variance that is applied for and the grounds on which it is claimed that the variance should be granted, as the case may be. Every decision of the Board of Adjustment shall be by resolution, each of which shall contain a full record of the findings of the Board in the particular case. Each such resolution shall be filed in the office of the city auditor.
- 4. Notice and Hearing. No action of the Board shall be taken on any case until after due notice has been given to the parties and public hearing has been held.
- 5. Appeal of Decision. A decision of the board of adjustment may be appealed to the governing body by either the aggrieved applicant or by any officer or department of the city. The appeal must be filed with the city auditor within fifteen days after notice of the decision of the board of adjustment. The governing body shall fix a time, within thirty days, for hearing the appeal, and give due notice of the hearing to the parties.

- 1. Report by City Zoning Commission Public Hearing. The governing body shall require a report from the City zoning commission on a proposed amendment before taking final action thereon. The City zoning commission shall thereupon make a tentative report and hold a public hearing thereon with notice the same required for a public hearing by the governing body, before submitting its final report. Such final report shall be submitted within ninety (90) days after the time of referral of the proposed amendments to the City zoning commission unless the governing body is agreeable to an extension of time.
- 2. Action by Governing Body Public Hearing. After the receipt of the required final report on any amendment from the City zoning commission or in the event of the failure of the City zoning commission to so report within ninety (90) days following the time of referral of the proposed amendment to the City zoning commission, the governing body shall hold a public hearing. No regulation, restriction, or boundary change may become effective until after a public hearing at which parities in interest and citizens shall have the right to be heard. Notice of the hearing must

MUNICIPAL UTILITIES

ARTICLE 1 - UTILITY ESTABLISHED

7.0101 <u>Municipal Utilities Department Established</u>

There is hereby established and created within the City a department to be known as the Municipal Utilities Department. The department shall have general charge of all plants, systems, works, instrumentalities, equipment, materials, supplies, sewage disposal plants, lagoons, intercepting sewer, trunk connections, sewer and water mains, filtration works, pumping stations and all parts and appurtenances of the foregoing which are used or useful in connection with the collection, treatment and disposal of sewage, waste and storm sewers for the inhabitants of this City, subject to all ordinances, rules and regulations.

7.0102 <u>Municipal Utilities Department to be Independent Agency</u>

All of the business affairs of the Municipal Utilities Department shall be conducted, insofar as is possible within the ordinances of the City, as a completely separate and distinct division of the City. Separate and distinct accounts shall be set up on the books of the city auditor. These accounts shall at all times reflect the true condition of the Municipal Utilities Department, as distinct from the remaining business of the City and shall be so devised as to disclose the annual profit or loss of the department. The funds of the department shall be held in the custody of the city auditor and disbursed upon warrant in the same manner as other funds, but the Municipal Utilities Department shall be given credit upon the books of the City for any and all funds paid by it into the City treasury and shall be charged on the books of the City with all payments made by the City on its behalf. Transfers from the Municipal Utilities Department to the General Fund or any other fund of the City shall not be made except upon order of the governing body nor shall transfer be made from City funds to the Municipal Utilities Department without like order. (Source: North Dakota Century Code section 40-33-12)

Where bonds have now been, or may hereafter be issued against any water works improvement or sewage improvement, which constitute a general obligation of the City, the taxes levied for the payment of such bonds and interest shall be levied and expended for such purpose in the manner provided by law, until such time as it may be possible out of the proceeds of the Municipal Utilities Department, after setting up a reasonable reserve for depreciation and new construction, to make payment of the bond requirements from the profits of the Municipal Utilities Department. It is expressly declared to be the purpose of this ordinance that as soon as the same can be accomplished without undue burden to the water users of this City, the Municipal Utilities Department shall be placed upon an entirely independent basis as a separate business enterprise.

7.0103 Scope of Utility

The properties of the Municipal Utilities Department and all future improvements, extensions and enlargements thereof, together with all cash and other assets held in the City's Municipal Utilities Fund and all moneys to be derived thereafter from the services, facilities, products and by-products of said utility, shall be and are hereby appropriated and dedicated to the purpose of ensuring the public health, safety and welfare by furnishing and making available water and sewerage service to the City and its inhabitants and industries. Said utility shall at all times be under the management and control of the governing body of the City and shall by it be operated and maintained in such manner as to provide its service with maximum efficiency and at the minimum cost which is compatible with the plan of operation herein described.

7.0104 Service Charges - Use of

The Municipal Utilities Department shall at all times be so operated and maintained, and rates and charges for its services, facilities, products and by-products shall be such, as to make the utility self-supporting and self-perpetuating. Such charges from time to time imposed and collected shall be made and

kept adequate to pay as incurred all costs of operation and maintenance of said utility and to establish and maintain reasonable operating reserves; to produce net revenues which shall be sufficient at all times to pay promptly the principal and interest due on all obligations of the City incurred for the improvement, extension and enlargement of said utility, to the extent that such obligations are according to their terms payable from said net revenues, and to establish and maintain adequate reserves for the security of said obligations. Charges may be set to produce surplus net revenues, over and above current principal, interest and reserve requirements, in amounts sufficient to provide reasonable allowances for depreciation and replacement of the utility plus a reasonable return on the City's capital investment therein which surplus net revenues, when actually on hand, and to the extent that they are not required as a reserve for depreciation and replacement, may from time to time be appropriated by the governing board to pay or contribute to the cost of any other City functions, subject to the limitations now or hereafter prescribed by law.

The foregoing appropriations shall not, however, be deemed or construed to preclude the City from defraying any part or all of the expense of any improvement, enlargement or extension of the water and sewer utility by the levy of special assessments or taxes or the issuance of general obligation bonds, whenever and to the extent that such action is authorized in the manner provided by law and is deemed fair and equitable by the governing body.

7.0105 Policy on Improvements - Extensions

It is hereby declared to be the policy of the City, subject to such modifications as shall be deemed by the governing body to be required by special circumstances in individual cases, and subject to such modifications as may hereafter be made by ordinance amendatory hereof or supplemental hereto, that the cost of capital improvements, enlargements and extensions of said utility shall be paid in the following manner:

- 1. Where water mains not exceeding six inches or sanitary sewer mains not exceeding eight inches in diameter are installed adjacent to residential properties, and where water mains not exceeding eight inches or sewer mains not exceeding ten inches in diameter are installed adjacent to commercial properties, the total cost thereof shall be assessed against the properties abutting on such improvements, in sums proportionate to and not exceeding the total benefits determined to be derived therefrom by the respective properties. Water and sewer mains of the dimensions above described are referred to herein as "lateral" mains and other mains are referred to as "trunk" mains.
- 2. Where a trunk main is installed, the governing body upon advice of the city engineer shall estimate the probable cost of construction of a lateral main at the same time and place and such estimated cost shall be assessed against the properties abutting on such main and in the manner above provided.
- 3. Twenty percent (20%) of the cost of any sanitary sewer in excess of the estimated cost of a lateral sewer at the same time and place shall be assessed against all properties determined by the governing body to require the immediate construction of such main as a trunk sewer, including properties abutting thereon and properties served or capable of being served by lateral sewers connected thereto, in amounts proportionate to and not exceeding the benefits determined to be derived by said respective properties from such trunk sewer.
- 4. The total cost of storm sewers shall be assessed against properties within the area determined to be benefitted thereby, in amounts proportionate to and not exceeding the benefits determined to be derived therefrom by the respective properties.
- 5. Where a portion of the benefits of any of the foregoing improvements is deemed to accrue primarily to the City at large, a portion not exceeding twenty percent (20%) of the cost thereof, as determined by the governing body, may be paid by the levy of ad valorem taxes upon all property within the City over the same period as the levies of assessments for such improvements, or any

- portion or all of such cost may be paid out of current funds duly provided in the budget, or from the proceeds of general obligation bonds duly authorized by the electors.
- 6. Such portion of the cost of any improvement, extension or addition to the utility as is not paid by special assessments and taxes levied and actually collected in respect thereof shall be paid from the net revenues of the utility.
- 7. Where due to any error or omissions or to any special circumstances a special assessment is not levied against any property benefitted by an improvement at the time of the construction thereof in accordance with the program described in this section, the City reserves the right to levy a supplemental special assessment upon such property or to impose and collect a special charge for the connection of such property with the utility system in such amount as shall be required to pay its just share of the assessable cost of such improvement.

7.0106 Utility Fund - Separate Accounts

All moneys received by the City in respect of the services, facilities, products and by-products furnished and made available by the Municipal Utilities Department, except collections of special assessments and taxes appropriated to improvement district funds and moneys borrowed for capital improvements, and all money, receipt and returns received from any investments of such earnings, shall be paid into the treasure of the City and kept in a special fund which shall be permanently maintained on the books of the City, separate and distinct from other funds, and designated as the Municipal Utilities Fund. In the records of this fund, all receipts and disbursements of money on account of or in connection with the utility shall be entered and reflected; but the moneys from time to time on hand therein shall always constitute public municipal funds and shall be deposited and their safekeeping secured like other City funds. Separate accounts within the Municipal Utilities Fund shall be permanently maintained for the purpose of segregating the revenues required to meet the several expenses and obligations of the utility, as provided below, and such revenues shall be administered and accounted for as follows:

- 1. Operation and Maintenance Account. There shall be credited at least once in each calendar month to the Operation and Maintenance Account of said fund, as a first lien and charge on the gross revenues of the utility such sum as shall be needed, over and above any credit balance then held therein, to pay all claims due which by accepted accounting practices constitute normal, reasonable and current expenses of operation and maintenance of the utility, and to pay such expenses estimated to accrue for a period of approximately one month, and to maintain a reasonable reserve for contingencies. Moneys in said account shall be used only to pay expenses of the foregoing type, and not for repairs or replacements or for capital improvements properly chargeable to replacement and depreciation reserves or surplus funds.
- 2. Principal and Interest Account. The Principal and Interest Account of the Fund, created by resolution adopted ________, ______, shall continue to be maintained as provided in that resolution until the payment in full of the improvement warrants issued against said fund.
- 3. Revenue Bond Account. The net revenues of the utility are herein defined as the aggregate of all sums on hand in the Municipal Utilities Fund from time to time in excess of the current requirements defined in (1) and (2) above. The entirety of the said net revenues shall be credited each month to the Revenue Bond Account of the Municipal Utilities Fund until there shall have been credited within said account, and thereafter so much of the net revenues as shall be necessary to maintain at all times, a reserve in an amount at least equal to the sum of the principal and interest payments due within each next succeeding twelve-month period upon all revenue bonds of the City heretofore or hereafter issued and made payable from said accounts. After this reserve has been created, there shall continue to be credited out of the net revenues to the Revenue Bond Account each month, over and above sums required to maintain such reserve, an amount not less than one-twelfth (1/12) of the sum of the principal and interest to become due on all such revenue bonds within the then next succeeding twelve months. Moneys in said account shall be used only for the payment of principal and interest as it becomes due on said revenue bonds, and the reserve

shall be used for such purpose only when other moneys in the account are insufficient. All revenue bonds heretofore and hereafter issued and made payable from said account, subject to the limitations upon such issuance contained in Section (6) hereof, shall constitute a first lien and charge on the net revenues of said utility without preference or priority of one bond over any other. However, if at any time the moneys in the Revenue Bond Account should be insufficient to make all payments of principal and interest due on such revenue bonds, and cannot be made sufficient by transfer of moneys from the other accounts described below, the moneys available shall be first used to pay interest then accrued on all bonds payable from said account, and any excess moneys available shall be used to pay matured principal of such bonds in order of their maturity dates, provided that moneys available for payment of bonds maturing on the same date shall be prorated equally among such bonds.

- 4. Improvement Warrant Account. There shall also be maintained in said fund an Improvement Warrant Account, for the purpose of segregating net revenues required for the payment of any portion of the cost of improvements hereafter instituted, for which such revenues have been pledged in accordance with the provisions of Chapter 40-22 of the North Dakota Century Code. There shall be transferred from said account as required, to the fund of each improvement district for which such pledge has been made, sums sufficient, together with tax and assessment collections held in such funds, to pay when due the principal and interest on all improvement warrants drawn upon such funds for the financing of such improvements. Moneys sufficient for the requirements of said improvement district funds shall be credited and paid into the Improvement Warrant Account out of the net revenues remaining from time to time after provision for the current requirements of the Revenue Bond Account, and the lien and charge on said net revenues in favor improvement warrants for the payment of which such pledges have been made shall be subordinate only to the lien and charge on said net revenues in favor of revenue bonds payable from the Revenue Bond Account. In the event that moneys in the Improvement Warrant Account shall be insufficient for the making of all transfers required to be made to the several improvement district funds to which such pledges have been made, and cannot be made sufficient by the transfer of funds from the remaining accounts described below, the available moneys shall be apportioned first to the several improvement district funds in sums sufficient to pay interest then accrued on all warrants drawn on such district funds, and any remainder shall be applied in payment of matured principal of such warrants in order of the maturity dates thereof. As among warrants maturing on the same date, such available moneys shall be applied to the warrants of the several issues in proportion to the matured principal amount thereof for the payment of which taxes and assessments in the respective improvement funds are insufficient.
- 5. Replacement and Depreciation Account. There shall be maintained a Replacement and Depreciation Account, into which there shall be credited and paid as received, except as otherwise stated below, all net revenues in excess of the current requirements of the other accounts above described. In said account there shall be maintained such balances as the governing body shall from time to time determine to constitute an adequate reserve for depreciation and replacement of the utility, which reserve may be used to redeem prior to maturity obligations payable from the net revenues as and when the same become pre-payable according to their terms, or to replace worn out or obsolete properties of the utility, or to make extensions, enlargements or improvements thereto. Any moneys in said account determined to be surplus to the immediate requirements therefore may be invested or may be transferred to other City funds in the discretion of the Board, in the manner and subject to the limitations set forth in Section 40-33-12 of the North Dakota Century Code; and any acts amendatory thereof or supplemental thereto.
- 6. Moneys on Hand. The moneys on hand in any of the accounts of the Municipal Utilities Fund shall at all times be available and shall be used to the extent necessary to restore any deficiency in the funds on hand in any of the preceding accounts, in the order listed above, for the fulfillment of the requirements of such preceding accounts as herein defined.
- 7. Additional Accounts. The City also reserves the right to create additional accounts within the Municipal Utilities Fund for the purpose of segregating any surplus net revenues which may be

69

pledged and appropriated to the payment of obligations hereafter issued to finance improvements, enlargements or extensions of said utility, other than the obligations made payable from the Revenue Bond Account and the Improvement Warrant Account, pursuant to the authority for such issuance reserved in Section 7.0107 hereof. Moneys on hand in any such account shall at all times be available for and used to the extent necessary to meet the current requirements of all of the foregoing accounts except the Replacement and Depreciation Account.

7.0107 Provisions for Financing Capital Improvements

In borrowing money for capital improvements, extensions or additions to said utility the following provisions shall at all times be observed:

- 1. For the purpose of this section, whenever the net revenues of the utility hereinabove appropriated to the Improvement Warrant Account are pledged to pay a portion of the cost of any improvement to be financed by improvement warrants, such warrants and the interest accruing thereon shall be deemed to be payable from said net revenues in the same proportion as that part of the cost payable from said net revenues bears to the principal amount of such warrants. The portion of costs payable from net revenues shall be deemed equal to the principal amount of the warrants less the principal amount of the taxes and assessments agreed to be levied for the payment thereof.
- 2. Except as provided in parts (3) and (4) below, no obligations shall be issued and made payable from the Revenue Bond Account or the Improvement Warrant Account at any time unless the net revenues of the utility, as defined in Section 7.0106 (3) hereof, received during the then next preceding fiscal year, shall have been in an aggregate amount at least equal to 125% of the average annual principal and interest payments due on all bonds payable from the Revenue Bond Account which are then outstanding or then to be issued, plus such percentage of the average of the annual principal and interest payments due on each issue of improvement warrants then outstanding or then to be issued as shall be payable from said net revenues, which averages shall be computed on the basis of the principal and interest payments due in the fiscal years of the then remaining term of all such revenue bonds and improvement warrants then outstanding. For the purpose of such computation, whenever rates for water and sewerage service have been changed in the course of any fiscal year, the net revenues for such year shall be deemed to be those which would have been received if such amended rates had been in effect during the entirety of such year, based upon the actual quantities of service furnished to each class of customers and the actual expenses of the utility during such year; provided that in no case shall the net revenues so computed be deemed to exceed 125% of the net revenues actually received during such year.
- 3. Refunding revenue bonds may be issued for the purpose of prepaying and refunding bonds payable from the Revenue Bond Account when and as they become pre-payable according to their terms, in the manner and to the extent permitted by law, provided that such refunding revenue bonds shall be subject to the requirements set forth in part (2) hereof, as applied to the past net revenues and future principal and interest requirements as of the date of the issuance of such refunding revenue bonds. However, the City shall and does hereby also reserve the right and privilege of issuing refunding revenue bonds, when permitted by law, for the maturities of any bonds payable from the Revenue Bond Account which have matured and for the payment of which the moneys in the Revenue Bond Account are insufficient, and cannot be made sufficient by transfer of moneys from other accounts, and such refunding revenue bonds shall be payable from the Revenue Bond Account on a parity as to interest with all then outstanding bonds payable therefrom, but the maturities of such refunding revenue bonds shall be subsequent to the maturities of all such outstanding bonds. Nothing herein shall be deemed to require the holder of any revenue bond to accept a refunding revenue bond in exchange therefore.
- 4. The City also reserves the right and privilege of issuing refunding improvement warrants in the manner and to the extent provided in Chapter 40-27 of the North Dakota Century Code and acts amendatory thereof and supplemental thereto. The lien and charge of such refunding warrants on the net revenues appropriated to the Improvement Warrant Account shall be the same as that in

favor of the improvement warrants refunded thereby; provided that for the purpose of the computations directed to be made in this section, the maturities and the rate or rates of interest payable on such refunding warrants shall be substituted for the maturities and interest rates of the improvement warrants refunded thereby.

- 5. Nothing herein shall be deemed to affect the obligation of the City, under the laws of the State of North Dakota, to levy ad valorem taxes upon all taxable property within its corporate limits for the purpose of paying a deficiency, if any, in the fund of any improvement district, at the time of the maturity of the last warrant drawn thereon, or at such earlier time as may be hereafter directed by such laws; provided that it shall be the policy of the City that the amounts of any deficiency tax levies so made shall be restored to the general funds of the City out of any surplus net revenues thereafter received, over and above the requirements of the several accounts of the Municipal Utilities Fund as stated in Section 7.0106 hereof.
- 6. Except as hereinbefore authorized, no obligation of any kind shall be issued and made payable from said net revenues unless the lien thereof is expressly made subordinate and junior to the lien and charge on said net revenues in favor of all revenue bonds and improvement warrants payable from the Revenue Bond Account and the Improvement Warrant Account.

7.0108 Agreements with Bond and Warrant Purchasers

The City shall and does hereby covenant and agree with the original purchaser and each holder from time to time of each bond or warrant issued and made payable from the Revenue Bond Account or the Improvement Warrant Account, as follows:

- 1. It will complete all improvements financed by the issuance of such obligations with due diligence and with the greatest economy consistent with good workmanship and efficient results, and will do so without creating or permitting the creation of any liens or encumbrances on said utility or on the revenues thereof other than the liens and charges of said revenues expressly authorized in this article.
- 2. As long as any obligations payable from said accounts are outstanding, it will continue to own and operate said utility as a municipal utility, free from all competitions as to the services thereby provided and in good and efficient operating condition.
- 3. It will at all times maintain a schedule of rates, charges and rentals for all services, facilities, commodities and benefits furnished by said utility and will impose and collect the same in amounts at least sufficient to make the minimum payments into the respective accounts of the Municipal Utilities Fund as specified in Section 7.0106 hereof, and will revise such schedules in such manner and as often as needed to perform this covenant.
- 4. Under each such schedule, the City shall be obligated to pay and will pay from its other funds to the Municipal Utilities Fund a fair and equitable amount for any and all services, facilities, commodities and benefits furnished to the City or any of its departments by the utility.
- 5. It will at all times maintain books of account adequate to show all receipts and disbursements of the City respecting the utility, and application of such receipts to the purposes of the several accounts described in Section 7.0106 hereof, which books of account shall be open to inspection by the holder of any obligation payable from the Revenue Bond Account or the Improvement Warrant Account at any reasonable time. The City will furnish a certified transcript therefrom of any information which any such bond or warrant holder may request, upon payment of a reasonable fee therefore.
- 6. It will cause the annual financial statement of the City required by the provisions of Section 40-16-05 of the North Dakota Century Code to include a statement as to the financial condition and the receipts and disbursements of the Municipal Utilities Fund and of its several accounts during

each fiscal year, and will furnish a copy of such statement to the original purchaser of each issue of bonds or warrants upon request.

- 7. Upon written demand of the holder of twenty percent (20%) or more of the bonds or warrants of any issue payable from the Revenue Bond Account or Improvement Warrant Account and then outstanding, it will cause an audit of the books of account of the utility to be made by a certified public accountant satisfactory to the holders of such obligations, the cost thereof to be paid as an operating expense of the utility and will furnish a copy of the report of any such audit to such party as shall be designated in such demand.
- 8. It will at all times keep the properties of said utility insured in reasonable amounts against loss or damage by fire, tornado and other risks for which similar properties are customarily insured by prudent owners, and will carry adequate public liability insurance, insuring against any claim of personal injury of property damage which is or may become a charge against the revenues of the utility. The City will also cause all persons handling funds of the utility to be bonded in suitable amounts for the protection of the City and the holders of obligations of the utility, and the expense of all such insurance and bonds shall be accounted for as an operating cost of the utility. The City will use the proceeds of any such insurance and bonds to restore the loss or damage compensated thereby.
- 9. The City and its governing body and each and all of its officers will punctually perform all duties with reference to said utility and the revenues thereof and the obligations issued hereunder which are imposed by the ordinances and resolutions of the City in force on the date upon which any such obligations are issued. All provisions of the Constitution and laws and of such ordinances and resolutions which provide security for the holders of bonds issued hereunder are acknowledged to be a part of the City's contract with the holders of such obligations; provided that nothing herein shall be deemed to preclude the City from modifying the policies set forth in Section 7.0105 hereof with reference to any improvements constructed and financed after the effective date of such modification.
- 10. The holders of twenty percent (20%) or more in principal amount of each issue of bonds or warrants payable from the Revenue Bond Account or the Improvement Warrant Account and at the time outstanding shall be privileged, and are hereby empowered, to institute and maintain, on behalf of the holders of all outstanding obligations of the same issue, any suit or proceeding at law or in equity for the protection and enforcement of any covenant, agreement or stipulation herein provided to be performed or observed by the City or its governing body or any of its officers, whether or not any such obligations are then in default as to principal and interest. Each and all of the rights and remedies provided by Sections 40-35-15 and 40-35-19 of the North Dakota Century Code are hereby acknowledged to be available to the holders of such obligations.

ARTICLE 2 - WATER SERVICE

7.0201 Applicability of Chapter

Every consumer of water and every owner of premises served thereby and every occupant and tenant of premises served thereby and all other person whomsoever, shall be governed by and shall be subject to all of the provisions of this chapter and to all other ordinances of the city and to all resolutions, rules and regulations established under this chapter and such other ordinances, which pertain to the municipal water.

7.0202 City Water

The city shall maintain an acceptable water treatment facility and/or enter into such contracts as may be necessary, such that an adequate supply of potable water is delivered to its consumers.

7.0203 Fraudulent Appropriation of Water Prohibited

It shall be unlawful and prohibited for any person, firm or corporation to willfully make any connection with any meter, pipe, conduit, wire, line or other apparatus belonging to or connected with the municipal water system, for the purpose of taking, using, or wasting such water, or to willfully prevent any water meter from duly measuring or registering the quantity of water supplied, or to in any way interfere with its proper action or just registration, or to without the consent of the City Council willfully divert any water or in any way willfully use or cause to be used without the consent of the City Council any water manufactured by or distributed from the municipal water system or aid, agree with, employ or conspire with any other person to do any of these acts.

7.0204 Interfering with Water Apparatus Prohibited

It shall be unlawful and prohibited for any person to willfully destroy, injure, disconnect, displace, cut, break, deface, or in any way interfere with any meter, water line, valve, curbstop, instruments or machinery of any kind used in the construction or operations of the municipal water system, or to aid, agree with, employer conspire with any other person to do any of said acts.

7.0205 Cash Bond Deposit

- 1. The City Council may from time to time by resolution made during the regular, open and public proceeding thereof, establish a cash bond to be paid by any consumer requesting service from the municipal water system guaranteeing full payments of all bills for such services.
- 2. A record shall be kept of such deposits; and upon the termination of the service of services for which the deposit has been made if the account or accounts has been fully paid such deposit or deposits shall be refunded; but if any amount remains unpaid upon such account or accounts the amount of such deposit or deposits, as the case may be, shall be credited on such account or accounts.

7.0206 Permit Required for Service Connections

- 1. It shall be unlawful to make, or attempt to make, any connection to the municipal water system without first obtaining a permit thereof.
- 2. Any person desiring to provide to any premises or structure the service of the municipal water system shall make application therefor to the office of the City Auditor. Such application shall be made on a form provided by the City Auditor and must be accompanied by an application fee or cash bond deposit. The amount of application fee or cash bond deposit shall be set by the City Council by resolution. Within 30 days after the date appearing on the application, there shall be set by such office, and the applicant shall be advised of, the amount of any connection fee to be charged; such connection fee shall be paid before the requested permit will be issued. Such form may require the legal description of the property involved and any information, assurance, promise or waiver relevant to the purpose for which it is made and relevant to the requirements that must be satisfied and relevant to the reliability of the person for whose benefit the service is to be rendered. The applicant shall promise in such application that he will pay for or will be ultimately responsible for, the cost of all services applied for and provided, and all changes made in connection therewith; that he will abide by all of the provisions of this chapter and by all of the resolutions, rules and regulations established thereunder. In consideration of the benefits to be received he will not sue the city or municipal water system or any of the offices or employees of same for any loss or damage of any nature whatsoever that he may suffer directly or indirectly from any failure to provide any service or for any disconnection or interruptions thereof for any length of time, however long, and for any reason, such reason, however, being subject to the disconnection of services for failure to pay.

3. The Water Superintendent may make reasonable requirements for updating any service line, and/or service entrance prior to providing electrical service when, in the sole opinion of the Electrical Superintendent such updating is required in the interest of public safety.

7.0207 Continuing Service Not Guaranteed

Nothing in the ordinances of the city, and all resolutions, rules and regulations established thereunder, shall be interpreted or construed as guaranteeing proper or continuing or uninterrupted service by the municipal water system. By virtue of this section the city does not guarantee the same.

7.0208 <u>Liability for Improper Service</u>

Neither the municipal water system nor the city shall be liable or responsible for any loss or damage of any nature whatsoever directly or indirectly resulting from, any improper or disconnected or interrupted service for any reason whatever, regardless of the length of time thereof, or the time or times at which such may occur. No notice need be given by municipal utilities or by the city that any service has been; or is about to be disconnected, interrupted or provided improperly, except where such notice is specifically required.

7.0209 Requirements of Installation

- 1. In order to be connected to the City water system or, if connection has been previously made, in order to continue said service, the following requirements must be met:

7.0210 Meters to Be Installed and Controlled by City and Service Lines

All consumers of water service shall be responsible for the cost of original installation of all plumbing between the main and any service devices maintained by the consumer, and all extensions made to such plumbing. All services shall be constructed by licensed contractors at the owners expense. All repairs to service lines and curb stop shall be the responsibility of the consumer. Plumbing and service lines as well as the meters owned by the city shall at all reasonable times be subject to inspection by authorized representatives of the city. Any repairs found to be necessary by such representatives shall be made promptly, or the city will discontinue service. Services means the service line running from the point of connection with the city main to the owners premises. All meters and metering devices to be installed hereafter shall be owned and maintained by the City of Cavalier. Replacement and repair of damage to said meters due to the negligence of the consumer will be at the expense of the consumer.

7.0211 Restriction of Use of Water

The City governing body may from time to time declare that water may not be used for specific purposes or may only be used in certain parts of the City on certain days for certain purposes. The City shall have the right to prohibit the watering of lawns and gardens, the washing of cars or such other uses of the water as may be necessary to preserve an adequate supply of water for consumption and use by the general public.

7.0212 Penalty

Any person found guilty of violating ordinance of the City of Cavalier for which no specific penalty is otherwise provided shall be punished by a fine of not more than \$1,000 or by imprisonment not to exceed 30 days or by both such fine and imprisonment. Each day any person, firm, association, or corporation shall violate any section or provisions of any articles shall constitute a separate offense.

ARTICLE 3 - SEWER

7.0301 Purpose

The purpose of this chapter shall be to generate sufficient revenue to pay all costs for the operation and maintenance of the complete wastewater system. The costs shall be distributed to all users of the system in proportion to each user's contribution to the total loading to the treatment works. Factors such as strength (BOD and TSS), volume, and delivery flow rate characteristics shall be considered and included as the basis for the user's contribution to ensure a proportional distribution of operation and maintenance costs to each user (or user class).

7.0302 <u>Determining Total Annual Cost of Operation and Maintenance</u>

The City Engineer shall determine the total annual costs of operation and maintenance of the wastewater system which are necessary to maintain the capacity and performance, during the service life of the treatment works, for which such works were designed and constructed. The total annual cost of operation and maintenance shall include, but need not be limited to, labor, repairs, equipment, replacement, maintenance, necessary modifications, power, sampling, laboratory tests, and a reasonable contingency fund.

7.0303 <u>Determining Each User's Wastewater Contribution Percentage</u>

1. The City Engineer shall determine for each user or user class the average daily volume of wastewater discharged to the wastewater system which shall then be divided by the average daily volume of all wastewater discharged to the wastewater system to determine each user's Volume

Contribution Percentage. The amount used as the total average daily volume of wastewater shall exclude infiltration and inflow. The City Engineer shall determine for each user or user class the average daily poundage of 5-day, 20°C. Biochemical Oxygen Demand (BOD) discharged to the wastewater system, which shall then be divided by the average daily poundage of all 5-day BOD discharged to the wastewater system to determine such user's BOD Contribution Percentage.

2. The City Engineer shall determine for each user or user class the average daily poundage of Total Suspended Solids (TSS) discharged to the wastewater system which shall then be divided by the average daily poundage of all total suspended solids discharged to the wastewater system, to determine such users' TSS Contribution Percentage. The Volume Contribution Percentage, BOD Contribution Percentage, and TSS Contribution Percentage for each user or user class shall be multiplied by the annual operation and maintenance costs for the total volume, the total 5-day, 20°C. BOD and the TSS, respectively.

7.0304 Determining a Surcharge System

Surcharge rate schedule for above normal strength wastes. The city will assess a surcharge rate for all nonresidential users discharging wastes with BOD and TSS strengths greater than the average residential user. Such users will be assessed a surcharge sufficient to cover the costs of treating such users' above normal strength wastes. Normal strength wastes are considered to be 200 ppm BOD and 250 ppm TSS. Such users will pay an additional user charge of \$0.01 per 1,000 gallons for each 25 ppm or fraction thereof over 200 ppm of BOD and \$0.005 per 1,000 gallons for each 25 ppm or fraction thereof over 250 ppm TSS.

7.0305 Surcharge Rate Scheduled for Above Normal Volume of Wastes

- 1. Residential users are considered to be one class of user and are hereby levied a charge of \$1.50 per month. Nonresidential users with flows no greater than the average residential user's flow of 6000 gallons per month and with BOD and TSS no greater than the average residential users' strength will be levied the same charge of \$1.50 per month as the average residential user.
- 2. Nonresidential users with volumes greater than the average residential user will pay an additional charge of \$0.10 cents per 1,000 gallons per month for all flows greater than the average residential user's flow of 6000 gallons per month.

7.0306 Determining Wastewater Service Charge

Each nonresidential user's wastewater cost contributions, as determine in § 7.0303 and 7.0304, shall be added together to determine such user's annual wastewater service charge. Residential users may be considered to be one class of user and an equitable service charge may be determined for each user based upon an estimate of the total wastewater contribution of this class of user. The governing body may classify industrial, commercial, and other nonresidential establishments as a residential user, provided that the wastes from these establishments are equivalent to the wastes from the average residential user with respect to volume, TSS and BOD.

7.0307 <u>Wastewater Facilities Replacement Fund</u>

A reserve fund called the Wastewater Facilities Replacement Fund (WFRF) is hereby established within the Wastewater Utility Fund for the purpose of providing sufficient funds to be expended for obtaining and installing equipment, accessories and appurtenances during the useful life (20 years) of the wastewater treatment facilities necessary to maintain the capacity and performance for which such facilities are designed and constructed. The WFRF established within the Wastewater Utility Fund as an interest-bearing account shall be funded by a deposit of \$1,500.00 per year.

7.0308 Review of Wastewater Service Charge

The city shall review the total annual cost of operation and maintenance as well as each user's wastewater contribution percentage not less than every two years, and will revise the system as necessary to assure equity of the service charge system established herein and to assure that sufficient funds are obtained to adequately operate and maintain the wastewater system. The city will apply excess revenues collected from a class of users to the costs of operation and maintenance attributable to that class for the next year and adjust the rate accordingly. If a significant user, such as an industry, has completed in-plant modifications which would change that user's wastewater contribution percentages, the user can present at a regularly scheduled meeting of the governing body such factual information and the city shall then determine if the user's wastewater contribution percentages are to be changed. The city shall notify the user of its findings as soon as possible.

7.0309 Notification

Each user will be notified, at least annually, in conjunction with a regular bill, of the rate and that portion of the user charges which are attributable to wasterwater treatment services.

7.0310 Prohibited Discharges

- 1. No person shall discharge or cause to be discharged any unpolluted waters such as stormwater, surface water, groundwater, roof runoff, subsurface drainage, or cooling water to any sewer, except stormwater runoff from limited areas, which stormwater may be polluted at times, may be discharged to the sanitary sewer by permission of the Cavalier Municipal Utilities Department and the North Dakota State Department of Health.

of any municipal system, the wastewater treatment process, or equipment, will not have an adverse effect on the receiving stream, or will not otherwise endanger lives, limb, public property, or constitute a nuisance. The Cavalier Municipal Utilities Department may set limitations lower than the limitations established in the regulations below if, in its opinion, such more severe limitations are necessary to meet the above objections. In forming its opinion as to the acceptability, the Cavalier Municipal Utilities Department will give consideration to such factors as the quantity of subject waste in relation to flows and velocities in the sewers, materials of construction of the sewers, the wastewater treatment process employed, capacity of the wastewater treatment plant, and other pertinent factors. The limitations or restrictions on materials or characteristics of waste or wastewaters discharged to the sanitary sewer which shall not be violated without approval of the Cavalier Municipal Utilities Department are as follows:

- a. Wastewater having a temperature higher than 150°F. (65°C.).

- j. Any water or wastes which, by interaction with other water or wastes in the public sewer system, release obnoxious gases, form suspended solids which interfere with the collection system, or create a condition deleterious to structures and treatment processes.
- 5. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated hereinbefore, and which in the judgment of the Cavalier Municipal Utilities Department, may have a deleterious effect upon the wastewater facilities, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Cavalier Municipal Utilities Department may:
 - a. Reject the wastes.

- b. Require pretreatment to an acceptable condition for discharge to the public sewers.
- c. Require control over the quantities and rates of discharge, and/or
- d. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of this chapter.
- 6. If the Cavalier Municipal Utilities Department permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Cavalier Municipal Utilities Department and the North Dakota State Department of Health. Grease, oil and sand interceptors shall be provided when, in the opinion of the Cavalier Municipal Utilities Department, they are necessary for the proper handling of liquid wastes containing floatable grease in excessive amounts as specified hereinbefore, or any flammable wastes, sand or other harmful ingredients, except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Cavalier Municipal Utilities Department and the North Dakota State Plumbing Code, and shall be located as to be readily and easily accessible for cleaning and inspection. In the maintaining of these interceptors, the owner(s) shall be responsible for the proper removal and disposal by appropriate means of the captivated material and shall maintain records of the dates and means of disposal which are subject to review by the Cavalier Municipal Utilities Department. Any removal and hauling of the collected materials not performed by owner's personnel must be performed by currently licensed waste disposal firms.
- 7. Where pretreatment or flow-equalization facilities are provided or required for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
- 8. When required by the Cavalier Municipal Utilities Department, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable structure together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such structures, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Cavalier Municipal Utilities Department. The structure shall be installed by the owner at his expense, shall be maintained by him so as to be safe and accessible at all times.

All meters and metering devices to be installed hereafter shall be installed, owned and maintained by the Light and Power Department. Consumers of electrical energy now owning meters may transfer ownership to the Department and after such transfer they shall be the property of and be maintained by the Department. Consumers of electrical energy who do not so transfer their meters shall maintain the same so as to accurately measure the current metered thereby.

7.0511 Accuracy of Meters

No electric meter shall be used which will not test within 2% plus or minus absolute accuracy at all loads within 5% and 150% of its rated capacity and shall be within the limits of 2% of inductive loads of any power factor. Such accuracy shall be determined by comparison with a rotating standard test meter.

7.0512 Service Lines to Be Consumer's Responsibility

Such service line shall be of an underground type for all new connections from the effective date of the ordinance from which this section was derived unless otherwise authorized in writing by the City Council. All connections must be done by a master electrician and approved by the superintendent. The consumer shall underground any existing overhead service lines upon notification from the department under the following conditions:
 - a. The property owner where overhead electrical service lines exist and need to be undergrounded will be given at least 60 days' notice by the superintendent that his present overhead service must be undergrounded by a certain date. The consumer will then cause to have this service line undergrounded by an electrical contractor or the CMU will have the work done and billed to the consumer.
 - b. The property owner who is directed to underground present overhead service lines will be reimbursed for part of costs as set forth hereafter. The property owner will bring the invoice from the electrical contractor which indicates the length of electrical wires undergrounded. The city will pay to the owner a sum to be computed by taking one-third of the quantity of line buried times the latest cost of wire to the CMU at that time. This sum will be paid to the property owner. If replacement of a meter socket is determined to be needed, a sum of \$30 will be added to the reimbursement total.
 - c. In those instances where the owner can prove an extreme hardship to pay the full cost of the undergrounding of his service lines, the City Council can authorize the work to be done by and through the city and the bill will be charged to the property owner's account to be paid back over a 12-month period without any interest charged. In those instances where a consumer feels there is inadequate street lighting at a location other than an intersection he/she shall complete a request form provided by the Municipal Utilities Department. This request form requires the signatures of all consumers within the inadequate area. A copy of the completed form will then be given to the alderman of that particular ward, who then shall present it to the City Council for approval.

LOAD MANAGEMENT

7.0514 Necessity for Controls

- 1. All future consumers of the municipal electrical system shall be subjected to compulsory load management requirements for electrical heating installations of the consumer, requiring a back-up heating system of either fuel oil, propane gas, natural gas, coal or wood burning furnace with sufficient capacity as determined by the Light and Water Department of the City to be adequate in capacity to serve the consumer's needs when the load management system interrupts the consumer's electrical heating system to reduce demand peak electrical consumption.
- 2. All future consumers of the municipal electrical system installing electrical heat shall make application with the Light and Water Department of the city for a permit to install electric heat.

At the option of the city, when the consumer's power factor during any hour is less than ninety-five percent (95%) lagging, the billing demand for the delivery point shall be increased by the following ratio:

.95 The lowest hourly power factor

(lagging) recorded in the current billing month

7. The consumer's billing demand shall be the average of the months' registered demand, during the monthly demand interval equal to the city wholesale power supplier's highest system peak loads. Said billing demand shall be effective from April 1 of the current year until April 1 of the following year. Said billing demand will be determined from data recorded by the demand meter on the consumer's service.

- 2. Where signs or markings are in place to define a no-passing zone as set forth in subsection 1, no driver shall at any time drive on the left side of the roadway with such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

The city traffic engineer or authorized person may erect signs indicating no parking upon either or both sides of any street adjacent to any school property when such parking would, in the traffic engineer's or other authorized person's opinion, interfere with traffic or create a hazardous situation.
- 2. When official signs are erected indicating no parking upon either side of a street adjacent to any school property as authorized herein, no person may park a vehicle in any such designated place.

9.1410 Stopping - Parking - Over 48 Hours

It shall be unlawful for anyone to park or leave standing on any public street or highway in the City any vehicle for a period longer than forty-eight (48) hours consecutively, provided this section shall not include any area where a shorter time is provided for parking.

9.1411 Parking Privileges for Mobility-Impaired - Certificate - Revocation

The provisions of North Dakota Century Code section 39-01-15 and all subsequent amendments are hereby incorporated by reference in this ordinance.

- 1. A mobility-impaired individual who displays prominently upon a motor vehicle parked by that individual or under that individual's direction and for that individual's use, the distinguishing certificate or license plates issued for mobility impaired individuals or a disabled veteran plate issued by the North Dakota Department of Transportation is entitled to courtesy in the parking of the motor vehicle. However, the city may prohibit, by ordinance, parking on any highway for the purpose of creating a fire lane or to provide for the accommodation of heavy traffic during morning and afternoon rush hours. The privileges extended to a mobility-impaired individual do not apply on a highway if parking is prohibited.
- 2. A mobility-impaired individual as used in this section includes an individual who uses portable oxygen; requires personal assistance or the use of crutches, a wheelchair, or a walker to walk two hundred feet [60.96 meters] without rest; is restricted by cardiac, pulmonary, or vascular disease from walking two hundred feet [60.96 meters] without rest; has a forced expiratory volume of less than one liter for one second or an arterial oxygen tension of less than sixty millimeters of mercury on room air while at rest and is classified III or IV by standards for cardiac disease set by the American Heart Association; has an orthopedic, neurologic, or other medical condition that makes it impossible for the person to walk two hundred feet [60.96 meters] without assistance or rest; or is a disabled veteran issued a plate by the North Dakota Department of Transportation.
- 3. A certificate issued by the North Dakota Department of Transportation must be hung from the rearview mirror of the motor vehicle whenever the vehicle is occupying a space reserved for the mobility impaired and is being used by a mobility-impaired individual or another individual for the purposes of transporting the mobility-impaired individual. No part of the certificate may be obscured. A fee of five dollars may be imposed for a violation of this subsection.
- 4. If a law enforcement officer finds that the certificate is being improperly used, the officer may report to the director of the North Dakota Department of Transportation any violation and the director may, in the director's discretion, remove the privilege. An individual who is not mobility impaired and who exercises the privileges granted a mobility-impaired individual under subsection 1 is guilty of an infraction for which a fine of one hundred dollars must be imposed.
- 5. If a public or private entity designates parking spaces for use by a motor vehicle operated by a mobility-impaired individual, those reserved spaces must comply with the requirements of the Americans with Disabilities Accessibility Guidelines for Buildings and Facilities as contained in the appendix to title 28, Code of Federal Regulations, part 36 [28 CFR 36] and must be indicated by blue paint on the curb or edge of the paved portion of the street or parking lot adjacent to the space. In addition to blue paint, each reserved space must be indicated by an official sign approved by the director bearing the internationally accepted symbol of access for the mobility impaired. The sign must indicate that unauthorized use of the space is a nonmoving violation for which a fee of one hundred dollars must be imposed. For particular events, a public or a private entity may reserve additional parking spaces for use by motor vehicles operated by a mobility-impaired individual. In that case, each temporarily reserved space must be indicated by a sign or other suitable means. A sign indicating that a space is reserved for the mobility impaired and blue paint on the curb or edge of the paved portion of the street or parking lot adjacent to the space, unless the space is a temporary mobility-impaired parking space, is sufficient basis for the enforcement of this section. A law enforcement officer shall enforce this section in any parking lot or parking facility, whether publicly or privately owned.
- 6. If the designated mobility-impaired parking spaces are occupied or unavailable, a motor vehicle displaying the distinguishing certificate or license plates issued for mobility impaired individuals by the North Dakota Department of Transportation or a disabled veteran plate issued by the North Dakota Department of Transportation may park at an angle and occupy two standard parking spaces.

- 7. An individual may not stop, stand, or park any vehicle in any designated parking space that is reserved for the mobility impaired unless the vehicle displays a mobility-impaired identification certificate issued by the North Dakota Department of Transportation to a mobility-impaired individual. A mobility-impaired individual may not permit the use of a certificate issued under this section by an individual who is not mobility impaired when that use is not in connection with the transport of the mobility-impaired individual. The registered owner of a vehicle may not allow that vehicle to be used in a manner that violates this subsection. Proof of intent is not required to prove a registered owner's violation of this subsection. The registered owner, however, may be excused from a violation if the owner provides the citing authority with the name and address of the individual operating the vehicle at the time of the violation. A vehicle may temporarily use a space reserved for a mobility-impaired individual without a mobility-impaired certificate for the purpose of loading and unloading a mobility-impaired individual. A violation of this subsection is a nonmoving violation for which a fee of one hundred dollars must be imposed.
- 8. A motor vehicle licensed in another state which displays a special authorized vehicle designation issued by the licensing authority of that state for vehicles used in the transportation of a mobility-impaired individual must be accorded the same privilege provided in this section for similar vehicles licensed in this state if the laws of the other state provide the same privileges to North Dakota motor vehicles displaying the special identifying certificate authorized in this section.
- 9. An entity that violates the requirements of Subsection 5 is guilty of an infraction if the entity does not comply with Subsection 5 within sixty days after receiving official notification of the violation.

The child restraint system must meet the standards adopted by the United States Department of Transportation for those systems [49 CFR 571.213]. While the motor vehicle is in motion, the child must be properly secured in the child restraint system in accordance with the manufacturer's instructions. While the motor vehicle is moving, each child of eight through seventeen years of age who is in the motor vehicle must be in an approved child restraint system in accordance with the manufacturer's instructions or correctly buckled in a safety belt. Use of child restraint systems and safety belts is not required in motor vehicles that were not equipped with safety belts when manufactured. This section does not apply to a child in a child restraint or seatbelt; to drivers of implements of husbandry; to operators of farm vehicles; to rural mail carriers while on duty delivering mail; to an occupant with a medical or physically disabling condition that prevents appropriate restraint in a safety belt, if a qualified physician states in a signed writing the nature of the condition and the reason restraint is inappropriate; or when all front seat safety belts are in use by other occupants. A physician who, in good faith, provides a statement that restraint would be inappropriate is not subject to civil liability. A violation for not wearing a safety belt under this section is not, in itself, evidence of negligence. The fact of a violation of this ordinance is not admissible in any proceeding other than one charging the violation.

2. The notice must be sent by certified mail, return receipt requested, to the registered owner, if any, of the abandoned motor vehicle and to all readily identifiable lienholders or secured parties of record. The license plates displayed on an abandoned vehicle must be removed and destroyed prior to the purchaser taking possession of the vehicle.
- 2. From the proceeds of the sale of an abandoned motor vehicle, the city may reimburse itself for the cost of towing, preserving, and storing the vehicle, and for all notice and publication costs incurred under this chapter. 13.0509 <u>Restitution or Reparation – Procedures</u>

- 1. Before imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount thereof. At or following the hearing, the court shall make determinations as to:
 - a. The reasonable damages sustained by the victim or victims of the criminal offense, which damages are limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant's criminal action;
 - b. The ability of the defendant to restore the fruits of the criminal action or to pay monetary reparations, or to otherwise take action to restore the victim's property;
 - c. The likelihood that attaching a condition relating to restitution or reparation will serve a valid rehabilitation purpose in the case of the particular offender considered.

The court shall fix the amount of restitution or reparation, which may not exceed an amount the defendant can or will be able to pay, and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. Any payments made pursuant to court order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filled, transcribed, and enforced by the person entitled to the restitution or reparation in the same manner as civil judgments rendered by the courts of this state may be enforced.

- 2. When the restitution ordered by the court under subsection 1 is the result of a finding that the defendant issued a check or draft without sufficient funds or without an account, the court shall impose as costs the greater of the sum of ten dollars or an amount equal to twenty-five percent of the amount of restitution ordered. The costs imposed under this subsection, however, may not exceed one thousand dollars. The state-employed clerks of district court shall remit the funds collected as costs under this subsection to the state treasurer for deposit in the restitution collection assistance fund. The funds deposited into the restitution collection assistance fund are appropriated to the judicial branch on a continuing basis for the purpose of defraying expenses incident to the collection of restitution, including operating expenses and the compensation of additional necessary personnel. The state's attorneys and county-employed clerks of district court shall remit the funds collected as costs under this subsection to the county treasurer to be deposited in the county general fund.
- 3. The court may order the defendant to perform reasonable assigned work as a condition of probation, which assigned work need not be related to the offense charged, but must not be solely for the benefit of a private individual other than the victim.
- 4. a. Under section 12.1-32-07 of the North Dakota Century Code, the court may order that the defendant reimburse indigent defense costs and expenses as a condition of probation. Unless it finds that there is no likelihood that the defendant is or will be able to pay attorney's fees and expenses, the court, in its judgment of conviction, and in any order or amended judgment following a revocation or other post judgment proceeding, shall notify the defendant, the defendant's probation officer, and the prosecuting attorney of the presumed amount of costs and expenses to be reimbursed, as determined by the commission on legal counsel for indigents, and of the right to a hearing on the reimbursement amount. The

reimbursement amount must include an application fee imposed under section 29-07-01.1 of the North Dakota Century Code if the fee has not been paid before disposition of the case and the court has not waived payment of the fee. If the defendant or prosecutor requests a hearing within thirty days of receiving notice under this subdivision, the court shall schedule a hearing at which the actual amount of attorney's fees and expenses must be shown. In determining the amount and method of reimbursement, the court shall consider the financial resources of the defendant and the nature of the burden that reimbursement of costs and expenses will impose.

- b. A defendant who is required to reimburse indigent defense costs and expenses as a condition of probation and who is not willfully in default in that reimbursement may at any time petition the court that imposed the condition to waive reimbursement of all or any portion of the costs and expenses. If the court is satisfied that reimbursement of the amount due will impose undue hardship on the defendant or the defendant's immediate family, the court may waive reimbursement of all or any portion of the amount due or modify the method of payment.
- c. If at any time the court finds that the defendant is able to reimburse costs and expenses and has willfully failed to do so, the court may continue, modify, or enlarge the conditions of probation or revoke probation as provided in subsection 6 or 7, as applicable, of section 12.1-32-07 of the North Dakota Century Code.
- 5. If the court finds that the defendant is unable to pay a fine, supervision fee, reimbursement for indigent defense costs and expenses, or restitution or reparations, the court may order the defendant to perform reasonable assigned work in lieu of all or part of a fine, a supervision fee, reimbursement for indigent defense costs and expenses, or restitution or reparations. The defendant may not perform reasonable assigned work in lieu of restitution or reparations unless the person entitled to restitution or reparations has consented in writing or on the record.

13.0510 Merger of Sentences – Sentencing for Multiple Offenses

- 1. Unless the court otherwise orders, when a person serving a term of commitment is committed for another offense or offenses, the shorter term or the shorter remaining term shall be merged in the other term. When a person on probation or parole for an offense committed in this city is sentenced for another offense or offenses, the period still to be served on probation or parole shall be merged in any new sentence of commitment or probation. When the court merges sentences under this subsection it shall forthwith furnish the penal facility in which the defendant is confined under sentence with authenticated copies of its sentence, which shall cite the sentences being merged. If the court has imposed a sentence, which is merged pursuant to this subsection, it shall modify such sentence in accordance with the effect of the merger.
- 2. A defendant may not be consecutively sentenced to more than one year. (Source: North Dakota Century Code section 12.1-32-11)

APPENDIX

COMMENTS

Section 1.0104

In most cases, the fine or penalty for the violation of City ordinances, regulations, or resolutions shall not exceed one thousand dollars, and the imprisonment shall not exceed thirty days for one offense. For violation of ordinances regulating the operation or equipment of motor vehicles or regulating traffic, see North Dakota Century Code sections 39-06.1-05, 39-06.1-06, and 40-05-06.

In 1972, the United States Supreme Court expanded the Sixth Amendment right to counsel of <u>Gideon V. Wainwright</u> to all cases in which the defendant could be imprisoned if found guilty of the charge against. <u>See, Argersinger v. Hamlin,</u> 407 US 25. As a result of this decision, municipalities are now required to provide free legal counsel to all indigent violators of municipal ordinances, if the penalty that can be imposed for such violation is imprisonment.

1.0201

The public is entitled to have the City governing body meet at the times specified by statute or by legal ordinance so as to prevent the City governing body from doing business in any secret meetings. (See North Dakota Century Code sections 40-06-02 and 44-04-19 to 44-04-21)

2.0101 Rules of Construction

In the construction of this code and of all ordinances, it is the intention of the drafters that the following rules shall be observed unless such construction would be inconsistent with the manifest intent of the City governing body:

- 1. <u>General Rule</u>. All words and phrases shall be construed and understood according to the common and approved usage of the language, except technical words and phrases and such others as may have acquired a peculiar and appropriate meaning.
- 2. <u>Gender Singular and Plural</u>. Every word in any code provision or ordinance using the masculine gender includes females as well as males; and every word using the singular number only including several persons or things as well as to one person or thing; and every word importing the plural includes the singular, except when a contrary intention plainly appears.
- 3. <u>Tenses</u>. The use of any verb in the present tense shall include the future when applicable.
- 4. <u>Joint Authority</u>. All words purporting to give a joint authority to three or more City officers or other persons shall be construed as giving such authority to a majority of such officers or other persons unless it shall be otherwise expressly declared in the law giving the authority.
- 5. <u>Delegation of Authority</u>. Whenever a provision requires the head of a department or other officer of the City to do some act or perform some duty, it shall be construed to authorize subordinates to do the required act or to perform the required duty unless the terms of the provision designate otherwise.
- 6. <u>Computation of Time</u>. The time which an act is to be done as provided in any code provision or ordinance or in any order issued pursuant to any ordinance, when expressed in days, shall be computed by excluding the first day and including the last, except that if

the first day be a Sunday or a holiday it shall be excluded; and when any such time is expressed in hours the whole of Sunday, from midnight, shall be excluded.

7. Overlapping Provisions. Where any provision of this Code imposes greater restrictions upon the subject matter than any general provisions imposed by this Code, the provision imposing the greater restriction or regulation shall be applicable.

For rules of interpretation as to ordinance construction, refer to North Dakota Century Code chapter 1-02.

3.0108 The requirements for sidewalks (length, width and distance) are provided for example only. Local requirements should be utilized when adopting or drafting this ordinance.

4.0401 Incorporation by reference of a national fire code is a valid exercise of municipal authority, as long as such incorporation is prospective. For more information about national fire codes, contact the state fire marshal.

8.0101 Business license fees established by municipalities are imposed as an incident of the municipal police power to protect the health, safety, morals and general welfare of the populace. (See North Dakota Century Code chapter 40-05) Such fees are not in and of themselves revenue-raising devices, but rather are regulatory devices to allow for the control of businesses and occupations which have potentially harmful or detrimental effects on the general public.

> The granting or denying of a business license is a discretionary rather than a ministerial act and as such cannot be delegated by the City governing body unless criteria are laid out in such a way that it becomes a ministerial act and does not require anyone to make any decisions requiring independent judgment.

An ordinance altering state speed limits within a city does not become effective until such speed limits are properly posted as required by North Dakota Century Code section 39-09-03.
